

VACANCY ANNOUNCEMENT: ENGINEER - IP CORE NETWORK

INTRODUCTION

Telekom Networks Malawi Plc (TNM) is looking for a suitably qualified person to join our team as a **Engineer - IP Core Networks**.

Reporting to the Manager PS & IP Core, the IP Core Network Engineer shall be responsible for operations and maintenance of TNM's IP network including the Internet gateway.

1. Major Tasks and Responsibilities

- Performs switching and routing configurations for end-to-end connectivity of all TNM systems.
- Performs troubleshooting and resolution of all internet and intranet service faults on IP Core network elements.
- Conducts regular network maintenance, including health checks & business continuity tests.
- Develops and implements TNM network security measures to safeguard the network from fraud, attacks, and revenue leakages.
- Implements own projects and supports all other projects on integration with existing systems.
- Carries out system upgrades and patch management.

2. Educational and professional Requirements

- Bachelor's degree in electrical & Electronics Engineering or Telecommunications Engineering or bachelor's degree in IT or any related field.
- Knowledge of Layer 2 & Layer 3 technologies – design, operations & maintenance.
- Knowledge of Unix/Linux and Mobile technologies.
- Knowledge of database management

- Innovative with excellent analytical and problem-solving skills.

Interested applicants are requested to submit their application letters together with an updated curriculum vitae (CV) to:

The Acting Human Resources and Administration Officer
